Family Medicine Postgraduate Program

POSITION VACANCY

Program Director - Sport & Exercise Medicine, R3 Enhanced Skills Program

The Postgraduate Program of the Department of Family Practice, University of British Columbia, invites applications from Family Physicians for the position of Program Director for Sport and Exercise Medicine, with the R3 Enhanced Skills Residency Program.

This is a comprehensive training program, which creates expertise in the assessment, management and ultimately prevention of sport and exercise concerns. The endpoint is the creation of community leaders in this relatively new area of medicine. There is one Enhanced Skills resident position per year. The Program is fully accredited by the College of Family Physicians of Canada.

Applicants should be a Certificant of the College of Family Physicians of Canada, and be licensed or eligible for licensure with the College of Physicians and Surgeons of BC. Educational and administrative experiences in residency training are preferred. CASEM certification, or international equivalence, is also preferred.

The successful candidate will have a proven record of leadership, excellent communication, interpersonal skills, and clinical expertise in the field of Sport and Exercise Medicine. He/she should be committed to providing a high quality experience in Sport and Exercise Medicine that is grounded in principles and competencies of Family Practice. He/she should have the vision and commitment to building the capacity of UBC SEM training across the province.

The position involves supervision of training, including curriculum development, evaluation and mentoring of residents for one year of residency training. It is anticipated that the position will require the equivalent of approximately 0.1 FTE (1/2 day per week). The Program Director is assisted by an administrative staff.

For a more detailed job description, please contact Lindsay Gowland (contact below). Interested individuals should submit their letter of application, curriculum vitae, and the names and addresses of three referees to:
