

TIPS FOR RIDE-SHARING DURING COVID-19

Evidence informed advice

Do NOT use car shares ([EVO](#), [Modo](#), [Zipcar](#)), taxis, ride shares ([Uber](#) or [Lyft](#)) or public transportation if you or someone in your household is known to have COVID-19 or has symptoms of it ([CDC](#)).

If you may have COVID-19 and need medical care, call 811 or your doctor before leaving home. Wear a mask and wash your hands. [Clean and disinfect](#) car surfaces after the trip.

Avoid touching your eyes, nose and mouth with your hands during any car trip. Wash hands with soap and water for 20 seconds or use hand sanitizer before eating or touching your face.

Assume that [high touch surfaces](#) of any shared vehicle or gas station are contaminated. Wipe car surfaces with a disinfectant before and after use. High touch surfaces in cars include: steering wheel, touchscreen, all door handles, any buttons, key fob, turn signal, wiper stalks, shift lever, starter button, lock, window, power mirror switches and the seat adjusters.

Avoid touching surfaces on public transportation. If you touch poles, straps, seats, door handles wash your hands or use hand sanitizer before eating or touching your face. Stay 6ft/2m away from the driver and other passengers.

Open windows to circulate air.
